STANDARD.

By direct cables via Lisbon.

Rome 1st.—The Agriculture Department reports the vine harvest good in Piedmont, Tuscany and Puglie, in spite of the ravages of the phylloxera.

London, 1st—England is negotiating with China to obtain the same commercial advantages granted to Russia, and the establishing of Consulates in the chief cities of the Celestial Empire.

Lerida, 1st.—The troops that are to take part in the military manœuvres are beginning to concentrate here.

Hamburg, 1st—Forty-seven fresh cases and 14 deaths in last 24 hours. The slight increase in fresh cases is due to many of the inhabitants who fled having returned to the city.

Paris, 1st.—Twenty new cases but very few deaths.

Havre, 1st.—Four fresh cases and one death yesterday.

The Hague, 1st.—Only 11 cases and 7 deaths in all Holland for last few days.

New York, 1st—All fears of a cholera epidemic are over.

Paris, 1st—The *Figaro* says that General Gourko, Governor of Russian Poland, stifled in blood the working men's riots in May of this year.

It adds that the press being muzzled this was not made known to the rest of Europe by telegram or otherwise. Dozens of workmen were killed and wounded.

London, 1st.—Mr. Cambridgeshire (?), a well known importer of produce from Hamburg, has died, it is thought of cholera.

Huelva, 1st—There was a slight earthquake here last night, which caused great alarm, especially amongst the thousands of strangers who have come for the Columbus fetes.

Berlin, 1st—Schultz, the banker, has failed.

The Reichstag will meet in the second fortnight of November, and the first Bills laid before it will be those for military reform and fresh taxes.

Vienna, 1st—This morning the 170 Austrian officers started from here on their ride to Berlin and 150 German officers from Berlin for here.

They are at liberty to choose what road they like, but the majority will go by Dresden and Gorlitz.

The race excites tremendous interest, and the betting on it increases daily. The best known sportsmen in Europe are wagering large sums.

Up to the present the Austrians are the favourites.

Rome, 1st—The Vatican has denied the report that the pilgrimages arranged for this month are to be postponed.

(Per Havas Agency.)

London, 1st.—The British Government has resolved to evacuate Uganda on March 31st next year. The English papers express great discontent with this news.

Paris, 1st—The owners of the Carmaux coal mine refuse both the demands of the men and the proposal for arbitration to settle the questions between them.

The situation is becoming worse, and the strikers are so exasperated that there are great fears of disorder.

Telegrams from Kotonou say that, in spite of the weather and all other impediments, the French troops are still advancing towards the Interior of Dahomey.

Ernest Renan, the great philologist and critic, is seriously ill, and the doctors have lost all hope of saving him.

(To the "Prensa".)

London, 30th.—Don Carlos has told his partizans that Queen Christina will be deposed in favour of a republic, but Spain will eventually return to the Bourbon monarchy. He orders his adherents to abandon their passive attitude towards the Queen Regent.

Dublin, 30th.—The Irish National League, of which McCarthy is the head, has published a manifesto declaring that the leaders of the party are convinced of the good intentions of the Liberals, and also believe that the House of Lords will support Home Rule.

Berlin, 30th.—The rumour that universal suffrage will be abolished in Germany has caused a very bad impression in all classes. The leading papers oppose the idea vigorously, and the *Cologne Gazette* says it is revolutionary.

General Karl Muller has died in Hannover, aged 99. He was the last German officer who had fought at Waterloo.

THE CREDITORS OF ARGENTINA.

London papers received yesterday contain an account of an important interview between the correspondent of the London *Standard* and the President elect, Dr. Saenz Peña, in which the latter is said to have made three statements:—

1st.—That it is idle to suppose that the Moratorio compact signed by Dr. Lopez, Lord Rothschild and Mr. Lidderdale can be carried out, seeing that Argentina has no prospect of resuming the full service of the foreign debt on 1st January 1894.

2nd.—That the Argentine nation is, nevertheless, willing to pay what she can to foreign bondholders, and will accept any reasonable reduction of debt or interest.

3rd.—That to this end the bondholders ought to send out a brace of special commissioners to see what we can pay, and arrange accordingly.

As regards the first statement we fully agree with Dr. Saenz Peña, who has come to the same conclusion that we have for a long time tried to impress on the people of this country. As to the second statement we could have wished it expressed more clearly, as, for example, that the Republic cannot set aside more than 25 per cent of its gross revenue for service of all debt, foreign and internal. But we are decidedly opposed to the idea of sending out from England a brace of special commissioners to ascertain the resources of Argentina and how much the country can pay.

The national debt in March 1892 amounted to $303,600,000 gold, exclusive of railway guarantees, Cedulas and other obligations. The total revenue in 1891 was only $19,200,000, a sum barely sufficient to meet the service of public debt and (even excluding the debt) wholly insufficient to meet the ordinary expenses of the Government.

It may be assumed that the revenue of 1893 will shew an increase of 50 per cent on that of last year, and reach the sum of 28,800,000$ gold. How much of this can be set aside for the service of debt? Perhaps 20 per cent, or by a great effort of economy 25 per cent. Let us suppose the latter ratio, and the account will stand thus :—

	$ gold
National expenditure....	21,600,000
Quota for debt.....	7,200,000
Total.....	28,800,000

Expenditure in 1891 was 124,300,000$ currency, according to the Minister's report, but this included 9,000,000$ for the Madero Docks and a like amount for coupons of the Pellegrini loan which we propose now to transfer to the account of public debt. Deducting these two items the expenditure would be 106 millions currency, but this included some old debts of the Juarez period, so that we may fairly estimate the ordinary cost of Government at 90 millions currency or 27,000,000$ gold.

In order, therefore, to bring down the national expenditure to $21,600,000, as proposed above, there must be a reduction of 20 per cent all round. We are by no means sure that such a reduction is possible, but we feel certain that it is the most that can be expected.

Taking for granted all the above reductions there will be in 1893 a sum of $7,200,000 or £1,400,000 sterling for the service of debt. We have already seen that the debt is a little over £60,000,000 sterling, and in order to pay 2 per cent per annum on same a sum of £1,200,000 would be required. The account would then stand thus :—

	$ gold	£ stg.
2 p. cent on debt	6,060,000 =	1,200,000
Railway guaran.	1,140,000 =	220,000
Total....	7,200,000 =	1,440,000

The existing railway guarantees amount to 4,500,000 dollars gold or four times the sum allowed in the above table, but it is to be hoped that some arrangement may be come to whereby the drain on the Treasury will be reduced to the above sum.

We exclude altogether the service of Cedulas or of provincial loans, because it is at present a question of re-organizing the National debt, pure and simple. The method adopted by the Moratorio, of giving scrip in full on the existing debt, was devised solely in the interest of the liquidators of Baring Brothers. It is plunging the Republic more hopelessly in debt.

When we ask the London bondholders to agree generously to cut down the Argentine debt by 50 per cent we do not propose anything very monstrous. In the first place it must be borne in mind that Argentina never received £60,000,000, as the debt seems to imply. Some of the loans were negotiated at 70, the Argentine Government giving a bond of £100 for £70 received, and continuing for many years to pay interest on £100. When these loans were contracted we protested vehemently in these columns against so fatal an error. Of course the republic is legally liable, but the circumstance is worth remembering.

It is still more important to bear in mind that nothing is gained by attempting to get from Argentina more than she can pay. Mr. Drabble said with much force: "Let those persons who had £1,000 in Argentina consider that they have now £100, and no more." What has happened to this country is no more than happened to Spain and other countries. In 1882 the London bondholders consented to reduce the Spanish debt 60 per cent. New bonds for £220,000,000 were given to holders of old stock amounting to £550,000,000. It was not a case of "scaling down" the interest, but of reducing the capital of the debt.

What we propose now is, either to reduce the interest on debt to 2 per cent for the next ten years, and then issuing bonds at 3 per cent for the whole existing debt; or to cut down the debt at once to £30,000,000 sterling and fix the interest at 4 per cent until the close of the century, the bonds to receive 5 per cent per annum after 1st January 1901. All the financiers in London and B Ayres cannot devise a plan by which to get more, and if the creditors look for more they will only increase confusion.

THE SORATA MAILS.

OUR LONDON LETTER.

(From our own Correspondent.)

London, Sept. 3rd.

Mr. Labouchere is a wholesome element in British society. The reason is that his distant French extraction enables him to look at us from a non-English point of view. By birth he has the "entrée" into the best English society, the stoniness of which bores him. By fortune and business habits he belongs to the wealthy middle-class. He despises their gluttony and display, and lives upon a raddish and a glass of water. He knows us all well. He detects and exhibits the bacillus of any particular form of British humbug when the native practitioner would not suspect a symptom of the disease. The *Daily Telegraph*, the *Daily This* and the *Daily That* have during the early part of the week had column upon column headed "Alarming spread of Cholera." *Truth* came out with "Cholera at a Penny a Line"—and lo! to-day there is not half a column of the cholera humbug in any one paper. The epidemic itself seems to have disappeared.

Even from Hamburg we have better accounts to-day. September has come in cold and breezy, bracing up the timid. I have not yet seen a single report of a case of cholera in a British subject. The few cases that occurred were foreigners. Of course, the danger is not over. The disease may break out virulently at any moment as it did at Hamburg and is said to-night to have done in Paris. What medical men are most afraid of here is that the germs may lie dormant during the winter and blossom in the spring or early summer.

The cholera scare seems to have affected business and the nerves of financial writers. I send you an article from to-day's *Statist*, which is more than usually pessimistic, and might lead you to suppose that we are on the eve of a commercial crisis. It could scarcely be a monetary crisis, since the Bank of England is full of gold, and all attempts at putting up the rates in the outside market have failed conspicuously. Since the editor of the *Statist* penned his article headed "The Prevailing Uneasiness" the London and General Bank (Ld.) has suspended, which causes the Liberator Permanent Building Investment Society to suspend payment of all notices of withdrawal. Neither of these institutions has any commercial importance. What is of most interest in regard to Building Societies, is the already proved villainy of officials in many of them. No particulars are as yet forthcoming as to the causes of the failure of the General Bank or of the Building Society affected. The Chairman of the bank is Mr. J. Spencer Balfour, M. P. These failures created no sensation and do not assist us in devising the motives of the *Statist* in issuing its warning signal. The *Economist* of to-day is as placid as usual. The *Statist* gives more particulars in its column headed "Market Prospects," but I can make nothing of it. We are told that money is very abundant, the reserve at the Bank being 18 millions and three months' Bank bills are done at 1 per cent, and that many people expect a considerable increase of activity in the Stock Exchange, for after all "it's cheap money as does it in the long run." We are told, moreover, that whereas at this time last year the crops all over Western Europe were bad, this year they are comparatively good. Even in Russia they are better than last year. South Africa is being opened up by railways, and the economic condition of the United States is excellent. Finally, Argentina is said to be recovering. But the cholera cloud darkens the office of the *Statist*. It can see nothing rosy. It does not believe there can be any sustained activity, and if speculation does spring up, your contemporary thinks it will break down before long, and probably with very serious consequences to those who engage in it. The *Statist's* first reason for its pessimistic view is the Silver crisis. It cautions us against speculating in United States securities and has not much faith even in South Africa. And as for the South American market, it does not like the antagonism between the Provinces and the Federal Government in Argentina, while in Uruguay matters are if possible worse, and in Brazil the banks are "hopelessly unsound" and the circulation is out of all proportion too great. Your contemporary grows more livid as he proceeds and winds up this wise—"Concerning Foreign Government Bonds, we hold still as we have heldlong, that they are too high and that there soon must be a break. Even the Russian Government admits that this year's crops are not good taking them all together, and its pecuniary difficulties are so great that it is just issuing another 25 million roubles of inconvertible paper. Spain, as we have lately shown, is bankrupt. Italy is marching towards the same goal and Portugal is in default and likely to remain so."

What a pity it is that writers on trade and finance should have livers and nerves. They should be cherubim. They are unreliable as they are. What seems to me to interfere with the *Statist's* digestion is the Lancashire cotton crisis, which is mainly founded, as we are told at present, upon three questions, silver, wages and over production. Another has been added, "want of new markets"; but most people would say that instead of making doubtfully paying railways at an enormous expense in India and South Africa and East Africa to force the sale of cheap cottons, it would be better if the Manchester men followed the example of the Germans, and made it their business to understand the wants and even the vagaries of the old markets.

Per Maskelyne.

You may have seen that Mr. Gladstone when walking in Hawarden Park last Monday was attacked by a heifer. The animal knocked the Prime Minister down and stood over him for a moment without doing more injury to the Right Hon. gentleman, who, when the cow trotted off, ran behind a tree and subsequently reached the castle alone, and little the worse for the encounter. The cow afterwards attacked a farmer on the property, doing him some injury. The mad beast was eventually shot.

SANTA CRUZ TERRITORY.

We have to congratulate our numerous countrymen in the above territory on the appointment of General Mayer as Governor. His long residence in the U. States had the effect of making him a profound admirer of English literature, and in recent years he has published Spanish versions of Smiles's works and those of other authors. In his new capacity at Santa Cruz he will find himself in a measure surrounded by educated Englishmen, sheepfarmers from the Falkland Islands who have settled all along the coast from Santa Cruz to Gallegos, which latter place is now the seat of Government.

Señor Edelmiro Mayer:

I have the pleasure of informing you that, by decree of yesterday's date you have been appointed Governor of Santa Cruz Territory.

The Government trust that your patriotism and recognised ability will be for the settlers in that territory, a guarantee for their progress and welfare.

I have the honor etc.,

José V. Zapata.

LATEST FROM MONTEVIDEO.

Saturday Evening.

The question between the Mortgage Bank and the Banco Popular of Brazil is giving rise to much warm discussion. The Banco Popular maintains that the Mortgage Bank must not appropriate the collection of the service in arrears, which properly correspond to the liquidation of the National Bank, that advanced the service on the coupons.

There is nothing new about the loan. The belief is gaining ground that it was a joke at the best. It was rumored last night that the Government had received unfavourable advices from Paris. In the meantime the official organ is very silent, and this reticence has naturally given rise to much unfavorable conjecture.

In political circles it is reported that Government intend to make some changes amongst the Jefes Politicos.

Serious rumours are afloat about the Mortgage Bank in reference to undue sales of property and withdrawal of corresponding Cedulas. Last evening Dr. José Pedro Ramirez resigned his post as lawyer for that bank.

Referring to the rumoured changes about to take place in the nomination of the Jefes Politicos, it is said that Mr. Harrobla will be removed from Tacuarembó to fill a similar capacity in another department. The same is said of Col. Ayalas, Jefe of Minas.

The Colorado party are very busy at present preparing for the Senators' elections.

THE PARAGUAYAN RAILWAY

(From the "Democracia".)

The Executive has sent to Congress a project of law creating new foreign bonds for the payment of interest and sinking fund due on the loan, and for the payment of the guarantee on the railway.

As Congress will close at the end of this month, there is no time to study these matters in the Chamber.

The same Committee of Deputies entrusted with the enquiry into the antecedents connected with the railway has not yet been despatched, and the reason of this delay is evidently owing to the fact that the enquiry requires great study and meditation.

The railway business was conducted very stealthily, and the Congress itself was in ignorance about it.

With regard to the foreign debt arising from the Loans we will not hurry in giving an opinion. For that we require certain details, which we may perhaps obtain after the promulgation of the Budget, which the Chambers have just sanctioned.

But it is not so in respect of the contract ad referendum about the railway guarantee. We find ourselves in a position to express an opinion upon what concerns this business.

In the first place, we are of opinion that the project or contract is extemporaneous, since the inquiry about the antecedents is going on in the Chamber of Deputies, and since the Senate has also required its investigation, as we infer from the explanations which one of its members asked from the Minister of Finance, and that Body accorded in the same session that the investigations should be carried out at a convenient time.

We hear, in the second place, if our memory is right, that the Government does not owe the railway a cent for the guarantee, but on the contrary, as results from the report (which has not been published) of Mr. Christian G. Heisecke, that the Company has acknowledged that it owes about $270,000.

In the third place, the Government cannot well treat at present with a Company which is not administered in this country in a legal manner, neither by its management here, nor by the present position of its Directors in London, for we know they delivered over the railway property to the Court of Chancery in London, which is equivalent to its going into liquidation.

In the fourth place, if we consider the matter from another point, the Government cannot either discuss the matter, even 'ad referendum,' with a manager who had acknowledged that the books of the Company had been kept with culpable deficiency, after stating there was a mistake and that there ought to be owing to this Government no less than $270,000.

The Chambers find themselves in the position of propounding, in respect to this, the clearest investigation, in order to act in consonance with the true interests of the country.

The Executive will have its opinions founded after its own way; we respect them, but without this amounting to our lending them our help, although this may be worth nothing.

We will not make any comment on the sad situation in which the Government places itself, confessing its insolvency and acknowledging publicly its incapacity to confront its own financial difficulties. Good luck to its frankness.

But we should not wish that it become the supporter of a Company which has no credit abroad nor even here; of that Company which has placed in a serious position its own shareholders; which has done plenty of harm to our credit in Europe, and which, in fine, has done nothing for the welfare of the very railway under its charge and direction.

Desiring their own personal safety the Directors themselves delivered the Company to the Tribunal of Commerce in London. This also is known, at least by those who follow the business in all its alternatives.

Let the Chambers listen to us: what the Company wants is nothing else than to save itself from a formidable engagement, that is, from the obligation to continue the line to Villa Encarnacion, and to discharge themselves from the obligation of the fine of 8000 dollars gold for every month of delay.

In order to discuss the project, or "ad referendum," it would be necessary to learn first the decision of the Chamber of Deputies and that of the Interventor, Mr. Heisecke, which we mention in these lines, in as much as it is most logical that these documents precede the consideration of that contract, if the matter is to be conducted in its due order.

THE DICTIONARY OF STATISTICS.

(From the "Athenæum")

This work by Michael G. Mulhall, Fellow of the Royal Statistical Society, is published by Messrs. Routledge and Sons The period through which we are passing naturally produces dictionaries—various in importance and various in dimensions. It does so because there is nowadays a demand for exact knowledge on many subjects differing widely from each other; and while no man can undertake to store up in his memory the endless number of facts, a knowledge of any one of which may be required from him at any moment, he may be able to keep on his shelves the volumes of the works of reference which can supply the information wented. Mr. Mulhall has brought within the compass of some 630 pages a mass of facts of a description which will be useful to all. Whether a reader of any daily paper requires information on agriculture or education, on population or on wealth, he will find it in this volume, and be able to trace out what he wants to know with the utmost readiness, for, besides a very convenient division under subjects, there is a very full and well-arranged index—an addition of importance to any work, but especially valuable in a book of this description, which bristles with information on every page. A full list of the most useful works of reference on the principal subjects treated is also given at the end of the volume. Many of the facts recorded are very striking. The advance of the newspaper press in this country has been enormous since the commencement of the century. But the development of North America in this respect is even more striking. A vast insight, indeed, can be obtained into contemporary history by turning over Mr. Mulhall's pages. Thus the statement of the steam power now employed in the various countries of the world gives the reader in a glance a facility for comparing their capacity for industrial development which it would have taken him a long time to acquire in any other way. The diagrams with which the volume is illustrated assist greatly in making the facts clear. Perhaps what will strike the English reader most is the evidence of the vast progress made in well-being in the United Kingdom, her colonies, and the United States. Though our colonies are but striplings, and at present have hardly had time for amassing large amounts, yet already Canada is nearly as wealthy as Belgium, and Australia surpasses Holland. This is in the mass. Compared with the amount to each inhabitant, the proportion comes out far more favourably. In conclusion we may congratulate Mr. Mulhall on having brought to a successful termination a work which must have cost him much time and immense labour. He has shown great skill, both in the selection of his materials and in the use he has made of them.

EVOLUTION OR NO EVOLUTION.

Mr. Editor,

Sir,

I had the pleasure in my former letter to consider Mr. Pennington's lecture as a very able production upon this delicate, difficult, unreasonable and unproved theory; but, on Wednesday evening last, he pointedly states that he would not enter the lists in a public newspaper! Well, we shall see if his friends will not? However, I submit to the judgment of the public that as he has come forward in a public manner to discuss this question and to persuade us to believe in a new theory, and not a science, that he must submit himself to public criticism, whether he or his friends reply or not. It is one thing to sit down in a library and study up any given subject, but quite another to be able to sustain it in the public press! People do not forget to array their points and quotations when discussing a subject in the press, but they are liable to do so when they enter in discussions "viva voce." Evolution of a sort exists, but it has never had the effects attributed to it.

No one has taken up the gauntlet, consequently I propose in a series of letters to consider the question in a negative sense, but I will not take upon myself to answer or contend with any correspondent until I have finished my say. I desire to put it on record as my share in the discussion into which I was prevented from entering, owing to some restrictive notions or rules of the Literary Society or of other persons interested on the affirmative side of the question. I consider that any person should have been allowed to have drawn arguments from any source he pleased; but no! no! Mr. Hutton was the principal champion against the theory of Evolution, followed by the Editor of the *Southern Cross*, who raised some unanswerable objections. I cannot but think it was an error to close a discussion which had not been properly ventilated; in fact, it should have been left open for three months

I was very sorry to see Dr. Ogle in the chair, for the reason that, as a clergyman of the Church of England, I imagined that he was in a critical and false position. If he had not evidently leaned to the side of the lecturer, his presence must, in a considerable degree, have had the effect of countenancing the theory of evolution, which, as I take it, is intended to replace the more reasonable account which has been accepted by the whole body of Divines.

Mr. Pennington asked who could determine the question of Evolution if Scientific men could not, forgetting that, apart from the German School, there are as many Scientific men against as there are in favour of the theory; besides, among Divines there are also a large number of scientific men. These then having a more comprehensive grasp of the two sides of the question, must, and ought to be received as the best judges.

Sir,

Anti-protoplasm.

There will be a practice game to-day at 2.30 p.m. on the Belgrano Polo ground, and members are requested to turn up in good time. Mrs. Enor has kindly consented to preside at the tea table.

EDITOR'S TABLE.

There were some very queer political rumours in the air yesterday, but they obtained little credence. Until the 12th arrives the sensational chatter may be expected to get more hair-standing every day. There is no truth in the rumour that the Congressmen are going home and won't return in sufficient number to get up a quorum to receive President Peña. Only some few of them mean to leave town.

Ciacchi's new opera company at the Politeama scored a success in Otello last night, and with the added attraction of the "Diablo Nero," enthused the public. There will be a crammed house to-night at the same performance.

The most interesting bit of news in town yesterday was that President Pellegrini, when he throws the cares of State to the dogs next Thursday week, will turn to auctioneering and join the well known firm of Funes and Lagos. Bravo! Dr. Pellegrini. Bidders will certainly be more liberal when they have cows, horses and second-hand carriages knocked down to them by an ex-President of the Republic. When Andrew Johnson had got through his term of office as President of the United States, he very sensibly resumed his business as a tailor, and sent circulars to the members of the Corps Diplomatique, respectfully soliciting their patronage and promising them the best value for their money.

The general meeting of the Zoos comes off to-morrow, and we thank the President for his kind invitation to be present.

More treasures for the Historical Museum: two guns that belonged to the old war-steamer "Guardia Nacional," which did such good service during the Paraguayan war. Our old-stager subscribers well remember the old craft, so different from the Argentine warships of to-day. The guns are at present in the Sub-Prefectura of Tierra del Fuego.

We are sorry to announce the death of Mr. Robert Henry Barlow, who for over 15 years occupied the position of store keeper of the Buenos Ayres and Rosario Railway at Campana. He was generally esteemed by all who knew him, and the sad news of his sudden death will no doubt be deeply felt be his numerous friends, and also by the Railway Company, who loses in him an attentive, true and honest servant. The funeral will take place at Campana to-day.

A cricket match, Captain *v.* Vice-Captain, will be played on the ground of the Lomas A.A.C. this afternoon, commencing at 1 p.m. This is in place of the match against the Rosario Railway, which has been postponed.

The half-yearly general meeting of the Lomas Academy Athletic Club will be held in Lomas on the evening of Saturday the 29th inst.

In another column our readers will find the announcement of the concert to be given by the Choral Union on the 10th inst.

The numerous friends of Dr. Ayer will be sincerely sorry to hear of his death, which took place in the United States on the 23rd of August. He was only 52 years of age.

Beer, gentle beer. Mr. Russell, manager of the Biekhert Brewery, has obtained permission to open beer kiosks at the head of all the streets leading to the Docks, so we expect to see lots of Pilsen and Bavarian flowing in that quarter during the broiling summer months.

The activities of the churches continue. At Flores the Rev. C. W. Holland, M.A., of Oxford, is preaching in St. Peter's Anglican Church this morning, and the same popular divine will occupy the pulpit of the Belgrano chapel of St. Laurence in the evening.

As will be seen from our advertising columns, there will be a special service for young men at the Scotch Church to-night.

The following are our selections for to-day's races:—

Premio Stiletto—Almirante
" Condesa—Vendetta
" Nacional—Niobe
" Osiris—Puygaveau
" Bolivar—Valiente
" San Martin—Buridan
" Amianto—Atalanta

London. Fine. Fifteen minutes.

Here's a chance to cut the swell at half price. The splendid Pacific steamer Magellan will leave Montevideo for Europe this day week, and as she will not take first class passengers, the second classers will be allowed to occupy the first class cabins and saloon and get to England in royal style for a miserable £15. This will be the cheapest ocean trip on record.

We regret to hear from Montevideo of the serious illness of Mr. John Jackson.

The Locusts are now swarming in every part of Entre-Rios, and we are watching the Extinction Committees to see how long that 30,000 shinplasters they got the other day will hold out, in presence of the winged invaders.

The only thing as yet decided by the Columbus Fete Committee is to strike off some medals Better stop there. There is no money in the city till. The public at large don't seem to enthuse much over Christopher's memory.

Bargossi will run a 20,000 metres race to-day at Palermo against a trotting horse.

We were up to our chin in mails from Europe yesterday. The papers are not particularly enlivening. The financial weeklies are deep in Mr. Hansen's Budget. Our London friends pin all their hopes on Dr. Peña's Government, evidently trying to keep up their spirits till he mounts the box-seat of the State Coach

Sure sign of the near approach of the straw-hat season. The Baths in Calle Balcarce open to-day.

Here's a cholera wrinkle from old England for our Health notables and authorities in general:—"A cargo of grapes brought from Hamburg to the Thames by the steamer Osprey has been stopped, the authorities refusing to allow the captain to land them. The importation of fruit from Hamburg to the port of London has now been entirely prohibited until further notice." By the way, what do our H.B. wiseacres mean by still declaring English ports "suspicious" when it has been officially stated that cholera does not exist in any part of the United Kingdom?

There is another squeam about the new Colon Theatre. It is now said that the edifice, which is half built, is better suited for a railway station than a theatre. Ye gods! Architect out! Bis!

The night parade in Calle Florida will now begin again, as no carriages will be allowed after night-fall in that ultra fashionable thoroughfare until the summer has come and gone.

The bargain Instinct in woman. Little Ethel—I don't want the nasty medicine, and I won't take it!

Mamma—But mamma got this medicine at a bargain, dear.

"All right."

The widows and pension beggars in general were all in tears yesterday at the sudden and unexpected wind-up of Congress. There is no chance for them now.

Our friends in the grain business may feel interested in learning that a Chicago lady is the inventor of a grain pipe line for carrying small grain through pipes. The scheme is to lay pipes from Chicago to the Atlantic coast. The grain is to be carried in a continuous ventilated shaft, it is claimed, without friction. The inventor is confident of the success of her plan. The working model is to be erected in Chicago this year. Grain traffic may be revolutionized by this invention. If the scheme is as successful as competent engineers expect it to be, the cheapness of the new method of transportation will very materially reduce the earnings of railroads and completely change the important industry of grain transportal.

The mountains of Muzo, or the emerald hills of the State of Boyaca in Colombia, are the richest in the world, and contain thousands of immense fortunes in their stores of gems. The Muzo mountains are of the same geological age as the chalk cliffs of Dover, and the emeralds occur in almost vertical layers of veins running from north-east to south-west, or thereby, through the strata. The veins are generally mixed up with some bituminous matter, and are worked both by galleries and in the open air. The mines of Muzo were worked by the native Indians before the Spanish Conquest.

A few newspapers in a clothes drawer are a far better preventive of moths than camphor. The insects cannot endure the smell of printing ink. There are a good many people like them. To us it is like attar of the roses near Bendemere stream.

The latest news from Australia is that Lady Hopetoun has resolved to root out the absurd 'don't dawnce' rudeness of the young men in what passes for society there. At the balls given by Lord and Lady Hopetoun at Government House the young ladies have been in much fewer numbers than the men, with consequence that the former are in great demand and able to exercise their feminine privilege by making a discriminating selection. It was quietly understood that the eyes of the distinguished hostess were upon the dancers, and that the gentlemen who failed to do their duty in the ballroom would be remembered in a practical fashion for future reference. The d. d. (We hope the printer won't put a dash between these two letters) nuisance has not yet appeared to any alarming extent, we are glad to say, in British society in Buenos Ayres. The absurdity is, of course, unknown at the balls of other nationalities.

Our American cousins have a wise saw that says "Never go near the business end of a mule." A "vasura" cart driver forgot this advice yesterday. Result, a kick in the right ear of such force that the beating of his own heart will probably be the only sound he will hear with that ear for the rest of his natural life.

Larrey, created a Baron by Napoleon after the two days battle of Wagram, was perhaps the greatest military surgeon that ever existed—as daring as ingenious. It is to him reverts the "honour" of making known horse flesh as a food suply, to the French. The wounded of the battle of Essling were conveyed to the island of Loban, in the Danube. Unable to transport them to the hospitals of Vienna, or to receive rations in time, Larrey ordered all the private and most valuable saddle horses to be slaughtered, commencing with his own, and to be converted into soup: they were the steel breastplates of the slain cuirassiers that formed the cooking vessels; the fields yielded cabbage stumps and potatoes, and for salt gunpowder was employed. He was chief of the Ambulances at Waterloo: after the defeat he tried to escape over the Belgian frontier, when he was captured by Prussian lancers. Disarmed and stripped, he was ordered to be shot, when the Doctor who was to bandage his eyes then recognized Larrey, under whom he studied during the French occupation of Berlin: the eminent surgeon was brought before Blucher, who ordered him to be at once se at liberty.

THE CHACABUCO STUD.

The following colts and fillies from the famed Chacabuco Stud of Mr. James Casey will be sold by A. Bullrich & Co., to-morrow (Monday), at 2 o'clock.

The STANDARD Sporting Editor had a good look at them yesterday, and reports that, in his opinion, the pick of the basket are Buenos Ayres, by Chivalrous out of Zarsaparilla by Winslow, own brother to Tilimuque; Entre Rios by Chivalrous and Baroness, own brother to Rivadavia; La Riojana by Noah out of Category by Hermit, sister to Esperanza. There are nine thoroughbreds, and all have their admirers, the lot being a very even one, as follows:—

Buenos Aires. Colorado, por Chivalrous y Zarsaparilla (hermano de Tilimuque y Diputado.

Santa Fé. Zaino por Chivalrous y Santa Fé

Entre Rios. Alazan, por Chivalrous y Baroness, (hermano de Rivadavia.)

ON 'CHANGE.

Saturday, October 1st 1892.

The month opened to-day with a firm tone in the gold speculation, the price of the ounce remaining steady at $53.20. Speculators had calculated upon a fall, as the requirements of the September settlement were covered, but they were disappointed. There are still disquieting roumers in the market, and all the more so as for the first time the legislative record has been broken in many years and the ordinary Congress Session allowed to lapse without the proverbial decree extending the legislative term. This breach in our Congress tradition has led many to suspect that something is brewing and that the National Government intends to avail of this artificial recess to adopt some stringent measures that could not be passed during the ordinary session and in presence of the legislators. State of seige was freely spoken of at the ring, but all these rumors are mere speculative fancies.

This morning's gold business did not amount to much; about eight thousand ounces changed hands; the price opened at $53.10 and closed at $53.20, say 228.88% premium. Six hundred sovereigns were sold at $16.48, say 227% premium. The market closed steady, but dull.

Owing to the payment of the quarterly coupons, a fall took place this morning in the price of Patriotic and Internal Bonds. About a quarter of a million of Patriotic Bonds changed hands at 73 to 72.80 for cash and at 73.40 for the end of the month. Internal Bonds were very dull, closing at 66.70 for cash and 66.50 for the end of the month; the cash price is quite nominal.

About eight thousand shares of the Catalinas changed hands this morning. The stock has not yet recovered from Thursday's shock and is tottering under 10. The price for cash opened weak at 9.60, advanced to 9.90, and closed at 9.80. The boom has fizzled completely, and it will be heavy up-hill work to coax prices back again to 11.

Municipal Consols improved to 58.20 for cash and 58.70 for the end of the month. La Plata Cedulas were singularly dull and weak this morning at 30 and 30.10.

Exchange continued to-day at yesterday's rate. Discounts were easy.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

It is remarkable to see the unanimity with which the press of this city regrets the resignation of Don Carlos Lix Klett, the indefatigable Inspector General of the Argentine Committee of the Chicago Exhibition. Simultaneously with this much-to be-regretted resignation appears a Government decree appointing Señor B Gronssac to represent Argentina at the great American Fair with a monthly stipend of $600 gold. We need not point to the causes that have led to the resignation of Mr. Lix Klett, for they are evident and all must respect them. The Government cuts a sorry figure in the matter. Mr. Lix Klett is a deserving public servant. He started the Produce Museum of the Sala del Once which proved the back bone of several Argentine Exhibitions. His services at the Paris Exhibition are still fresh in the public mind, and his disinterestedness is all the more striking when compared with his indefatigable efforts and persevering industry; all these undertakings for account of the nation were mainly successful through his untiring energy. In 1890 he helped to organize the exhibition at Palermo. At the instance of the government and of the American Minister, Mr. Lix Klett was induced to undertake as Inspector General the collection and classification of produce exhibits for the Chicago Exhibition. At the moment that the greatest success crowned his exertions, that a magnificent collection had been formed under his care, a decree appears and the following resignation is penned: no further comment is necessary. The whole market applauds Mr. Lix Klett. The following is the text of his resignation:—

To H. E. the Minister of Interior.

By decree of Dec. 3, 1891, I was commissioned, together with Mr. Julian Victorica, by the Government to prepare the elements for the proper representation of the country at the Chicago Exhibition, to which the United States Government had invited Argentina.

I accepted the trust, and felt honored by the distinction conferred on me by the State, and immediately set to work with my modest means to contribute towards the successful issue of the Government's efforts. I have much satisfaction in stating that the results have surpassed my most sanguine expectations, as the call of the Committee was immediately responded to, in an enthusiastic and patriotic manner, by representatives of all branches of industry in the country, and the generous donations received by the Committee form, I may say without hesitation, the most complete and most valuable collection ever organised by the State for a tournament of the kind, a collection which I have had the satisfaction of personally making up and classifying, as will be seen by reference to the detailed weekly reports forwarded by me to the Committee.

Reasons of a private nature, which I have taken the liberty of verbally explaining to Y. E., compel me to resign my post, and I therefore

Affairs ruled very dull at the second ring : three thousand ounces were sold for Monday at $53.10, say 226.26% premium. All stocks and shares were dull, La Plata Cedulas falling to 29.80 and 30.00.

The following is a summary of the business effected in stocks and shares at the second ring to-day :—

Ounces—
Oct. 3.... 2,824 at 53.10.
Sovereigns—
Oct. 3.... £238 at 16.48.
Patriotic Bonds—
Oct. 3.... 109,900 at 72.80-60.

Mr. Adam Malin, so favorably known in this market, has entered into partnership in the firm of Brauss, Arning and Co.

The Land and Colonies Office has informed the Government that nearly all the military land grants, provided by law of 5th Sept. 1885, have been taken up. These grants embrace four million hectares.

The Minister of Finance issued order to-day to pay to Messrs. Madero and Son 800,000$ gold in Treasury Bills for works done in the port.

The Inspector General of the Riachuelo Works has applied to the Government to provide another steam tug for the works; the cost is estimated at 20,000$.

We find we were mistaken in stating in our last that Mr. A. S. Hall, who left in the Clyde, is the explorer. He is the brother of the explorer. Mr. Corydon P. Hall, who, in company with Mr. A. Gilderdale, explored the territory of Neuquen.

There was quite a rush of shareholders at the new offices of the old Gas Company yesterday, and all were loud in their praises of Señor Parodi's tact in dealing with faulty consumers. This is not the very best way for a man to make himself a popular idol, but duty called for the effort on the part of both Sr. Parodi as President and Mr Murray as Manager of the "Compañia Primitiva de Gas." Nor was the call made in vain, both of these gentlemen proving fully equal to the trying occasion; for not alone is a regular quarterly dividend being paid on the shares, but better still, several large debts that had been incurred in enlarging the new works at Calle Ministro Ingles are also paid off in full. And yet the London papers say that the gas business over here is disastrous. Surely they must refer to other companies in other parts.

The great improvement in National Bank cheques within the last few days is attributed to the increased demand for them. The moratorium of the bank, we hear, expires on the 15th, and this will always have some effect on the market, in as much as it is probable a dividend to the depositors will shortly be paid. They said on'Change that the new Government will turn over a new leaf with regard to the liquidation of this bank, and that all parties who can at present liquidate with cheques at their present price should do so. Even as regards the Provincial Mortgage Bank there is a decidedly better feeling. The Cedulas in circulation, that last year amounted to 360,000,000 are now down to about 200,000,000, and gradually as the country improves property will rise in value and the redemption of mortgages will be on a still larger scale. The new National Government will probably cause a complete change in the administration of the Provincial Mortgage Bank, as also in the Provincial Bank. Should those two institutions be lifted up by Dr. Romero and placed on their legs again he will make for himself a reputation both here and in Europe that will eclipse the fame of all previous Finance Ministers in this country.

The Banco de la Nacion discounted yesterday $800,000, and all the principal private banks also discounted liberally at low rates ; nevertheless a large revolvencias amounting to about half a million nats on houses and lands have been concluded in these days at the high rate of 18% per annum.

It was rumored on'Change this afternoon that the courts have granted an embargo on the properties of two well-known large property holders and politicians and for small amounts ; as a rule politicians to-day have very little credit either on the Bolsa or at the banks.

The English Meat Company, we are pleased to say, is steadily going ahead ; the Municipality has granted them permit to open in various parts of the city neat, handsome, well-fitted butchers' shops which will be an immense convenience to the families. The opening of these stalls and fitting them up will be a matter of expense to the company, and it really shows the very little energy that exists in this country when a business so good in the hands of private parties should, as it were, be forced upon the meat supply company. The chief difficulty in this business is the long credit that has to be given ; the company, we understand, in order to guard against this difficulty, will only supply the meat for 6 days on credit, which seems to us a good and sound rule ; but all the Italian butchers in town give the families a month's credit and sometimes 6 months' credit, and the amount of money due by some of the first families in B Ayres to butchers, bakers, and schools is something incredible. Of course in the long run it is nearly always paid, but sometimes it takes years to collect. It is a very safe rule, therefore, of the meat supply company to only let their bills run for 6 days.

The following sales of city property are reported by the tax office :—

House 1,454 Peru 10x20 for $7,500.
Do 1,466-72 do 10x20 for 8,500.
Do 1,284 Piedad 9x59 for 61,000.
Do 1,481 Defensa 14x60 for 29,600.
Do 1,702 Solis and Chile 9x23 for 22,500.

Dr. Juan Jose Romero, our new Finance Minister, left by last night's train for his estancia in Juarez : he was accompanied by a few friends.

The sale of 3,000 cows "al corte" in the Partido of Pueyrredon at the price of $9 is reported.

We regret to say that advices from Montevideo report the millionaire Mr. John Jackson in a very critical state, also Dr. Magariños Cervantes. The doctors have very slight hopes of their recovery.

The auction of the estancia La Maria by Messrs Arturo Schutt and Company was a brilliant success. The attendance of bidders was large. The Durhams brought 16,260%, the Herefords 18,260, the Brood mares 8,770, the mestizo mares 4,465, and the sheep 2,458 giving a total of $50,213.

Several sales of wool in the Plaza Constitucion are reported ; about 20,000 kilos from 6 to 7.70. Some contracts for new wool have been effected, but the prices and details are reserved. Sales in wheat and maize continue active ; 3,000 bags of wheat in the Constitucion at 9.50 ; 6,000 bags of maize in the Mercado Central at 6.25 ; 10,000 bags in the Rio Santiago at 6.35, and one large lot of 50,000 bags in San Nicolas at reserved price. About 5,000 bags of maize sold in the Once for consumption at 6.10 and 6,000 bags of wheat in the same market at from 8.50 to 9.70. These large and constant sales of maize at this time of the year fairly astonish the market, and people ask where in the world does all the maize come from? This time last year we had the locusts in the camp and they did a great deal of damage. Nevertheless the maize crop survived ; let us hope this year will be the same.

Commercial Bank
When they finish the three cornered fight going on at present between the Landlord the Directory of the above mentioned Bank, and the old Lady Justice, as to whether or not the Directors must return the rooms in our rear lately occupied by them, in the same condition as they took them, we shall be able to fit them up to make room for our marine and Hail Insurance Departments, trusting that until that time our increasing clientage will kindly excuse the annoyances that follow from lack of space
La Porteña insures all kinds of grain crops against Hail Storms, at fair premiums, and notes of responsable parties are accepted, payable at the end of the harvest.

A LOS HACENDADOS Y á nuestra clientela
Animados por el favor y la confianza que los hacendados y el publico en general dispensa a esta casa, obligandole mas vasta esfera de accion y deseando corresponder a sus exigencias, nos es grato comunicarle que desde la fecha hemos incorporado a nuestra casa de remates y comisiones las consignaciones de frutos del pais y cereales os que recibiremos a comision para vender en los mercados Central de Frutos, Constitucion y Once en las mismas condiciones que los demas consignatarios.
Semanalmente remitiremos a nuestros comitentes una revista de precios corrientes con fieles apreciaciones sobre el estado de la plaza.
Cuando los criadores o nuestros clientes lo pidan venderemos sus frutos en remate previo anuncio, lo que ofrecera la indiscutible ventaja de dar nombre y fama a los establecimientos productores, cuyos frutos con rarisimas excepciones se venden actualmente sin saberse en nuestra plaza y menos en Europa el establecimiento que los ha producido.
La venta en remate ofrece por otra parte en nuestro mercado mayores facilidades que en los del Havre, Londres y Amberes, porque aqui los compradores pueden apreciar mejor todo lo que comoran, examinando el articulo sin enfardelar.
La distancia a que se encuentran nuestros mercados uno del otro y la circunstancia de hallarse los negocios simultaneamente en los tres, tiene el inconveniente de distribuir los compradores alejando la competencia, y el remate subsana esta dificultad, porque como se anuncia previamente, permite a los interesados congregarse a una hora fija en el mercado donde ha de efectuarse la venta, estimulando el exito de las operaciones la competencia de los licitadores.
Para vender frutos en remate, sera necesario que asi se nos ordene expresamente, de lo contrario venderemos a estilo de plaza.
Esperando merecer en este ramo la misma confianza que en las otras comisiones, nos es grato repetirnos sus attas. y S. S
Adolfo Bullrich y Cia.
